## Two nomenclatorial changes in the genus *Cryptocephalus* from Asia (Chrysomelidae: Cryptocephalinae)

ANDRZEJ WARCHAŁOWSKI

Zoological Institute, University of Wrocław, Sienkiewicza 21, 50-335, Wrocław, Poland, e-mail:  
awar1927@gmail.com

ABSTRACT. Two replacement names are proposed: 1. *Cryptocephalus* (*Burlinius*) *rapillyi* nom. nov. for *C. (B.) orientalis* RAPILLY, 1980 (nec HOPE, 1831, nec WEISE, 1882); 2. *Cryptocephalus bifurcillatus* nom. nov. for *C. (B.) bifurcatus* KIMOTO et GRESSITT, 1979 (nec MEDVEDEV, 1978).

Key words: entomology, nomenclature, new names, Coleoptera, Chrysomelidae, *Cryptocephalus*.

1. In 1980 M. RAPILLY described a new subspecies of *Cryptocephalus* (*Burlinius*) *ochroleucus* (MARSHAM, 1802), *C. ochroleucus orientalis* from Thailand. The name is preoccupied by *Cryptocephalus orientalis* HOPE, 1831: 30 and also by *Cryptocephalus pygmaeus* var. *orientalis* WEISE, 1882: 233.

I propose, as replacement name, *Cryptocephalus* (*Burlinius*) *rapillyi* nom. nov.

**Etymology:** dedicated to known French entomologist, Michel RAPILLY (1928-1983), the discoverer of the discussed species.

2. In 1979 S. KIMOTO and J. L. GRESSITT described *Cryptocephalus bifurcatus* from Thailand. The name is preoccupied by *Cryptocephalus* (*Bertiellus*) *bifurcatus* MEDVEDEV, 1978: 866 from Afghanistan.

I propose, as replacement name, *Cryptocephalus bifurcillatus* nom. nov.

**Etymology:** according to the intention of KIMOTO and GRESSITT, after forked elytral pattern.
